## designed for scientists

## EUROSTAR 100 digital

/// Data Sheet

Powerful laboratory stirrer for highly viscous applications and intensive mixing for quantities up to $100 \mathrm{I}(\mathrm{H} 2 \mathrm{O})$. It automatically adjusts the speed through microprocessor controlled technology within the speed range of 0/30-1300 rpm. Safety circuits installed ensures automatic cut-off in an anti-stall or overload conditions. Continuous comparison of shaft speed to desired speed is maintained and variations are adjusted automatically. This guarantees a constant speed even with changes in viscosities of the sample.

- Digital speed display
- Infinitely adjustable speed

## designed for scientists

- Push-through agitator shafts
- Overload protection
- Short-term overload operation
- Slim casing
- Quiet operation
- Error code display
