Julabo

DYNEO DD-300F Refrigerated / heating circulator

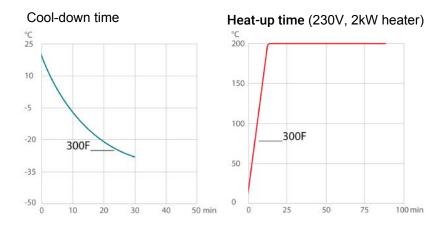

Refrigerated circulators of the DYNEO series distinguish themselves with a great price-performance ratio. The instruments offer high heating/cooling capacities for short heat-up and cool-down times. The refrigerated circulators work precisely and reliably even at higher ambient temperatures up to +40 °C. Either in basic research, in material testing or in technical systems – the DYNEO refrigerated circulators offer functional solutions for every requirement and budget.

Optional analog and digital interface

DYNEO thermostats can optionally be equipped with analogue or digital interfaces. To request the options, order number must be extended with .d for the digital and .a for the analog interface (9XXX XXXX.A / 9XXX XXX.D)

Product features

- For internal and external applications
- Optimized cooling coil design saves space in the bath tank
- Powerful and infinitely adjustable pressure pump
- Flow rate 27 l/min, pressure 0.7 bar
- Easy switching between internal and external circulation
- Large color TFT display, multilingual interface
- Central rotary knob (controller) simplifies operation
- Integrated programmer
- Integrated external Pt100 connection
- USB connection
- RS232 interface or analog interfaces (optional)
- Integrated drain makes emptying liquid easy and safe.
- Bath cover included with delivery
- Removable ventilation grid
- Space-saving cooling coil design provides more usable space in the bath tank
- For internal and external applications
- Powerful cooling machines

Performance values

115V/60Hz (Nem	a N5-15 Plug)							
Heating capacity kW		1						
Viscosity max. cST			50					
Pump capacity flow rate l/min			8 27					
Pump capacity flow pressure psi			1.5 10.2					
Power A			12					
Order No.				9021703.02				
Cooling capac	city (Ethanol)							
°C	20		10	0	-10	-20		
kW	0.3		0.3	0.27	0.19	0.08		
*Performance specifications measured in accordance with DIN12876. Cooling capacities up to 20 °C measured with ethanol; over 20 °C with thermal oil unless otherwise specified. Performance specifications apply at an ambient temperature of 20 °C. Performance values may differ with other bath fluids.								
Refrigerant stage 1								
Refrigerant R134a								
Filling volume	g	100						
Global Warmin for R134a	ng Potential	1430						
Carbon dioxide equivalent 0.143 t								
230V/60Hz (Nema N6-20 Plug)								
Heating capacity kW					2			
Viscosity max. cST					50			
Pump capacity flow rate I/min					827			
Pump capacity flow pressure psi				1.5 10.2				
Power A					12

Working temperature range °C		-25 +200					
Temperature stability °C		±0.01					
Ambient temperature °C		+5 +40					

All Benefits

More bath.

Designed for more comfort. Thanks to the recessed cooling coil, the internal bath provides more space.

Space saving. Free up space. Place your JULABO Circulator right next to an application, another unit, or wall. That saves space. This is made possible by eliminating vents and connections on the sides.

Solid. Minimized energy loss through high-quality insulation.

Condensation protection. Superb design solution. Integrated ventilation directs air over the bath lid and minimizes condensation.

Green technology. Development consistently applied environmentally friendly materials and technologies.

Individual JULABO consultation and comprehensive manuals at your disposal.

Services 24/7.

Ouick start.

Around the clock availability. You can find suitable accessories, data sheets, manuals, case studies, and more at www.julabo.us.

Handle with ease. Makes day-to-day work

Makes day-to-day work easy. Comfortably move your CORIO around by using the ergonomic handles (front and rear).

Turn. Push. Go. Easy operation of all parameters using the central controller.

RS232. Standard connection using the serial RS232 interface.

Process stability. Early warning - visual and acoustic - of critical states increases process stability.

100 % Cooling capacity

'Active Cooling Control' for cooling available throughout the entire working temperature range, fast cool-down even at higher temperatures

Tidy. The special drain tap for easy draining of bath fluids without tools.

100% Checked.

100% testing. 100% quality. Each JULABO Circulator undergoes thorough quality testing before leaving the factory.

JULABO. Quality. Highest standards of quality for a long product life.

Satisfied customers.

11 subsidiaries and more than 100 partners worldwide guarantee fast and qualified JULABO support.

Quick support

If an error occurs, the integrated Black-Box function permits fast diagnosis by the JULABO service team

Highly precise

PID Temperature control with drift compensation and adjustable control parameters, temperature stability $\pm 0.01...\pm 0.02$ °C

USB.

Remote control made easy using the integrated USB interface.

Analog I/O.

Analog interfaces for integration into process control systems (optional).

Connection. Easy.

Inclined pump connections (M16×1) facilitate the connection of applications. Each unit includes 2 barbed fittings of 8/12 mm diameter each.

Brilliance. In color.

Large color display with vivid luminance is easy to read, even from a large distance.

.'

Information. Everything clear. Information in plain text on a large color screen.

Programmer. Integrated.

The integrated internal programmer makes it possible to automatically run temperature time profiles.

Temperature. Under control.

External Pt100 sensor connection for precise measurement and control directly in the external application.

Process. Under control.

Full control of the dynamic, access to all important control parameters for individual process optimization.

Wide range.

Refrigerated and heating circulator in various combinations, circulator in various sizes. Maximum flexibility through large selection of accessories.

Multi-lingual.

Powerful. Adjustable. Strong pressure pump, continuously adjustable.

Fill level. Monitored. Fill level indicator on the display for heat-transfer liquid.

Stable. Mobile.

ATC3. Calibration. 'Absolute Temperature Calibration' for compensating a physically caused temperature difference, 3-point calibration.
